REMARKS/ARGUMENTS

Reconsideration of this application is respectfully requested.

During a telephone conference with Examiner Hussain and his supervisor on June 2, 2010, the Examiners requested that claims 36-42 be amended to require that the computer-readable storage medium be "non-transitory" so as to explicitly not encompass "signals" in accordance with current USPTO practice. It was also requested that a terminal disclaimer be submitted *vis-à-vis* U.S. Patent Nos. 7,181,494 and 6,907,471.

By the foregoing amendment, claims 36-42 have been amended to include the term "non-transitory", and the requested terminal disclaimer is submitted concurrently herewith.

Accordingly, this entire application is now believed to be in allowable condition, and a formal notice to that effect is earnestly solicited.

Respectfully submitted,

NIXON & VANDERHYE P.C.
